IDEA Kit: Accounts and Passwords

Classroom computers, Engines, apps, router, switch and Wi-Fi

Version 1.1, 22 October 2026

Contents

How to reach things 3
Classroom computers (Ubuntu) 3
Engines (Raspberry Pi 5) 3
Apps (the same on every Engine) 3
Router, switch and Wi-Fi 4

> **Keep this sheet private.** It lists the IDEA default passwords. They all follow one rule: account name + `911!` (for example `admin` → `admin911!`). Do not leave this sheet at the school.

How to reach things

What	How
Students' Wi-Fi	Network `IDEA`, password `idea911!`. Console and apps only, no internet.
Teachers' Wi-Fi	Network `IDEA-Teachers`, password `idea-teachers911!`. Console and apps, plus internet if the router has internet.
IDEA Console	Browser: `http://<sticker-name>.local`, where `<sticker-name>` is the name on the Engine's sticker (for example `http://brave-otter.local`). Each Engine's Console shows the apps of all the school's Engines. On a classroom computer, the IDEA icon opens it.
Apps	Open them from the Console with **Open ↗**. You do not need their addresses.

Classroom computers (Ubuntu)

Account	Username	Password	Notes
Student desktop	`learner` (shown as Learner)	none	Logs in by itself. Joins Wi-Fi `IDEA` by itself.
Support admin (hidden)	`admin`	`admin911!`	Only at the keyboard: **Not listed?** on the login screen, or `su - admin` in a terminal.
Remote SSH	`admin`	SSH: key only, no password	

Engines (Raspberry Pi 5)

Account	Username	Password	Notes
Remote SSH	`pi`	SSH: key only, no password	The same on every Engine.
Local (keyboard) login	`pi`	`pi911!`	Only at the Engine's own keyboard and screen.

Apps (the same on every Engine)

App	Username	Password	Notes
IDEA Console: Operator	`admin`	`admin911!`	Person icon (top right) → **Operator Login**. Students and teachers use the Console without logging in.
Kolibri (school "IDEA School")	`admin`	`admin911!`	Super admin. No teachers or learners yet: the admin creates them.

App	Username	Password	Notes
Kolibri Demo ("IDEA Demo School")	`admin`	`admin911!`	Super admin
	`teacher1`, `teacher2`	`teacher1911!`, `teacher2911!`	Coaches of class Grade 5
	`learner1`, `learner2`, `learner3`	none	Learners type their username only
Nextcloud	`admin`	`admin911!`	Administrator
	`teacher1`	`teacher1911!`	Group teachers
	`learner1`	`learner1911!`	Group learners
Nextcloud Demo	`admin`	`admin911!`	Administrator
	`teacher1`, `teacher2`	`teacher1911!`, `teacher2911!`	Group teachers
	`learner1`, `learner2`, `learner3`	`learner1911!`, `learner2911!`, `learner3911!`	Group learners. Nextcloud learners do need a password.
Wikipedia, Wikipedia (Demo)	none	none	No login

Router, switch and Wi-Fi

What	Username / network	Password	Notes
Router web page (Cudy, LuCI)	`root`	`admin911!`	`http://10.42.0.1`, from a computer plugged into the router by cable (not over Wi-Fi). If it is refused, contact IDEA support.
Router SSH	`root`	`admin911!`	Only from a computer plugged in by cable
PoE switch web page (TP-Link)	`admin`	`admin911!`	`http://10.42.0.10`, from a computer plugged in by cable
Wi-Fi students	`IDEA`	`idea911!`	2.4 and 5 GHz. Students cannot reach each other's devices.
Wi-Fi teachers	`IDEA-Teachers`	`idea-teachers911!`	2.4 and 5 GHz
